Dear Doctor:

The Executive Board of the North American Society for Pediatric and Adolescent Gynecology cordially invites you to become an active member of this young and dynamic organization.

We are devoted to improving the health care of young women in our society, in a meaningful and knowledgeable fashion.

The aims of the Society are to develop educational materials for the improvement of health care, not only for the physician who treats these young patients, but for all health care professionals involved in the management of pediatric and adolescent gynecologic problems.

As part of our educational activities a new Journal titled Pediatric and Adolescent Gynecology has been developed. The first issue will be available in the Fall of 1987. In addition, a quarterly newsletter will be sent to the membership. This newsletter will be devoted to the important medical, social and behavioral issues involved in caring for the young female patient.

The first annual meeting of the Society will be held in Cleveland, Ohio, September 20-22, 1987. A post graduate course in conjunction with the Cleveland Clinics will also be part of the annual meeting. This program is under the direction of Gita Gidwani, M.D.

The dues for membership in the Society which will cover a one year period will be \$100. Enclosed please find a membership form, which we trust you will fill out and mail to Dr. David Muram, Treasurer.

On behalf of the Executive Board, we look forward to your becoming a member of our Society and participating in its deliberations.

Sincerely yours,

Alvin F. Goldfarb, M.D.  
President
