WELCOME

Dear Industry Colleagues,

The North American Society for Pediatric and Adolescent Gynecology (NASPAG), founded in 1986, is dedicated to providing multidisciplinary leadership in education, research, and gynecologic care to improve the reproductive health of youth. Its focus is to serve as the leading provider in pediatric and adolescent gynecology (PAG) education, research, and clinical care, conduct and encourage multidisciplinary and inter-professional programs of medical education and research in the field of PAG, and advocate for the reproductive well-being of children and adolescents through unrestricted, unbiased, and evidence-based practice. The Society continues to grow in membership as it informs, educates, and advances the quality of care for young gynecological patients both nationally and internationally.

We are thrilled to announce that NASPAG, in partnership with the Fédération Internationale de Gynécologie Infantile et Juvénile (FIGIJ), will host the prestigious World Congress of PAG in San Francisco. This international conference unites our global community of PAG professionals, fostering collaboration and knowledge-sharing to elevate care standards worldwide.

The mission of the Society is to provide multidisciplinary leadership in education, research, and gynecologic care to improve the reproductive health of youth. Industry Partners and technical exhibits are essential to the success of our meetings, including the upcoming World Congress.

Our tabletop exhibit package offers opportunities to build brand awareness, provide product education, and forge valuable new connections with global PAG leaders.

Thank you for considering our request for participation; we look forward to your commitment. For questions, please contact Lauren Johnson at ljohnson@veritasamc.com or 847-752-5920.

Kind regards,

Krista Childress
